Policy Statement

Child abuse and neglect are concerns throughout the world. Child abuse and neglect are violations of a child's human rights and are obstacles to the child's education as well as to their physical, emotional, and spiritual development.

Canary The School endorses the UN Convention on the Rights of the Child and National Child Protection Policy, of which our host country, India, is a signatory and seeks to be a safe haven for students who may be experiencing abuse or neglect in any aspect of their lives. Schools fill a special institutional role in society as protectors of children.

The Canary community must ensure that all children in our care are afforded a safe and secure environment in which to grow and develop.

Canary staff, having the opportunity to observe and interact with children over time, is in a unique position to identify children who are in need of help and protection.

All School staff has the obligation to understand the main crimes against minors for Indian law and the related duties to report these crimes. Therefore, all members of staff are legal mandatory reporters and have a professional and ethical obligation to be alert to the signs of neglect or abuse and inform concerns of suspected abuse or neglect.

Procedures are initiated as directed by school policy and regulations in accordance with local authorities and Indian child protection laws.

School will make every effort to implement hiring practices to ensure the safety of children and will review the policy annually for child protection law and regulation compliance and effectiveness. In the case of a staff member reported as an alleged offender, the School will follow a carefully designed course of action in accordance with Indian law and regulations, keeping the safety and wellbeing of the child as the highest priority

Child abuse:

According to the World Health Organization child abuse constitutes “all forms of physical and/or emotional ill-treatment, sexual abuse, neglect or negligent treatment or commercial or other exploitation, resulting in actual or potential harm to the child’s health, survival, development or dignity in the context of a relationship of responsibility, trust or power.”

This includes hitting, beating, kicking, shaking, biting, strangling, scalding, burning, poisoning and suffocating.

Sexual abuse

Sexual abuse is defined as the involvement of a child in sexual activity that he or she does not fully comprehend, is unable to give informed consent to, or for which the child is not developmentally prepared, or else that violates the laws or social taboos of society.

Emotional and psychological abuse

Emotional and psychological abuse involves both isolated incidents, as well as a pattern of failure over time on the part of a parent or caregiver to provide a developmentally appropriate and supportive environment. Acts in this category may have a high probability of damaging the child’s physical or mental health, or its physical, mental, spiritual, moral or social development. Abuse of this type includes: the restriction of movement; patterns of belittling, blaming, threatening, frightening, discriminating against or ridiculing; and other non-physical forms of rejection or hostile treatment.
